ABOUT US

Macedonio 22 Spedizioni srl was founded in November, 2012, based on its founder's idea to set up a **streamlined, agile, and high-performance courier** in the Alessandria area.

The company initially only handled shipments of **goods on pallets** to and from the whole of Italy. The ability to present itself to the customer in a more modern way and with more **streamlined rates** than its competitors, as well as an ideology based exclusively on the **quality of its service**, enabled the company to quickly begin making a name for itself in the region.

The traffic of goods was growing steadily and continuously, so much so that by mid-2015 the company already needed to look for new logistic spaces to continue the business.

In April 2016, Macedonio 22 Spedizioni moved to its current headquarters in Frugarolo (Alessandria). The current warehouse is about 8000 covered square meters and is used for both the **courier** and **logistics** sides of the business; the latter service, launched in 2016, has continued to gain momentum over the years, so much so that it required more and more space to be able to carry out its work.

Starting from 2017, the continuous desire to grow led to new professionals being added to the team, who have contributed in a fundamental way to the increase in goods managed and, subsequently, to the launch of new services such as parcel and full load shipments all over the world, and, most recently, overseas freight forwarding.

Today, **MacSped** is a **courier / forwarder** that still manages contacts and shipments in a fast, professional, and streamlined way, but is also a transport company offering a range of services that few competitors can boast.

We have also recently officially become **IATA agents**.

PALLET

MacSped has years of experience in shipping goods on **pallets**. We have operational centres throughout Italy and a network of more than one hundred affiliates to better manage national and international shipments. To meet all our customers' needs, we offer two types of service: **Express**, with **delivery in 24-48 hours** throughout Italy, and **Dynamic**, with more advantageous rates and fast delivery.

Shipping goods on pallets means simplifying transportation, minimising errors, and reducing shipping times. In fact, pallets ensure the goods are better protected and streamline the executive flow.

preventivi@macsped.net

ADR

For the handling of special or dangerous goods, we are equipped with vehicles suitable for **ADR-compliant** transportation of all classes, regardless of the type of labelling.

Our vehicles are regularly checked in compliance with current regulations and our staff receives ongoing training, even more frequently for operators involved in the transportation of dangerous goods.

preventivi@macsped.net

E-COMMERCE

Over the years, we have specialised in the shipment of express packages aimed at **e-commerce** and the industrial market. We guarantee high-quality management of **shipments** in the **national** and **international markets**, both **by air** and **by land**. To better serve the needs of online businesses, we have developed a special section of our software that enables us to easily manage over **100,000 shipments a month**.

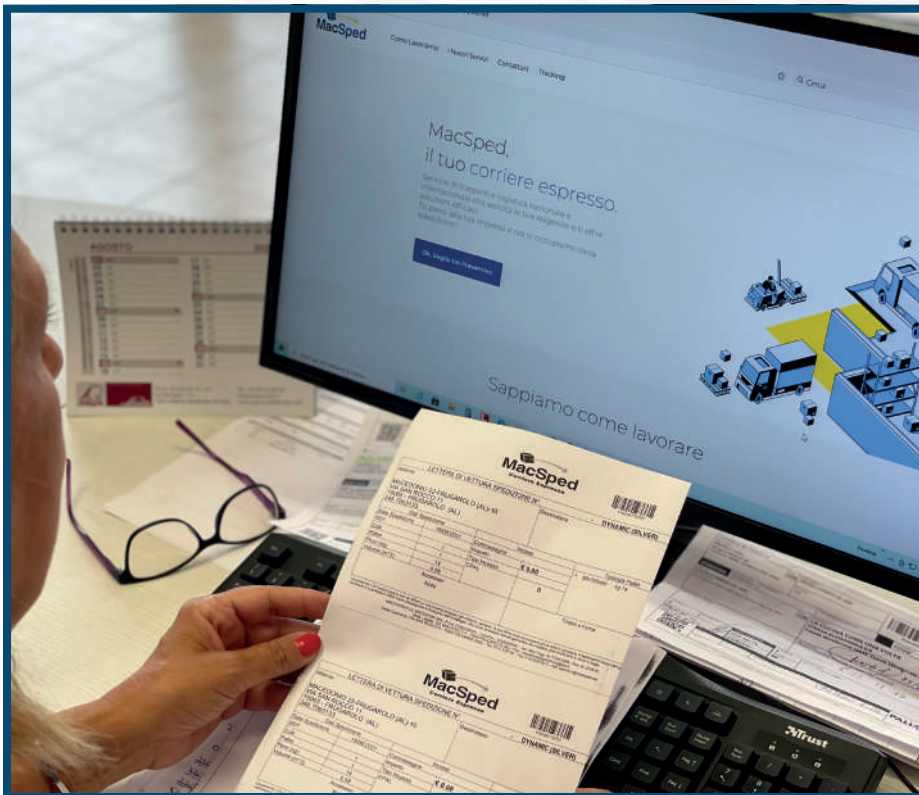

preventivi@macsped.net

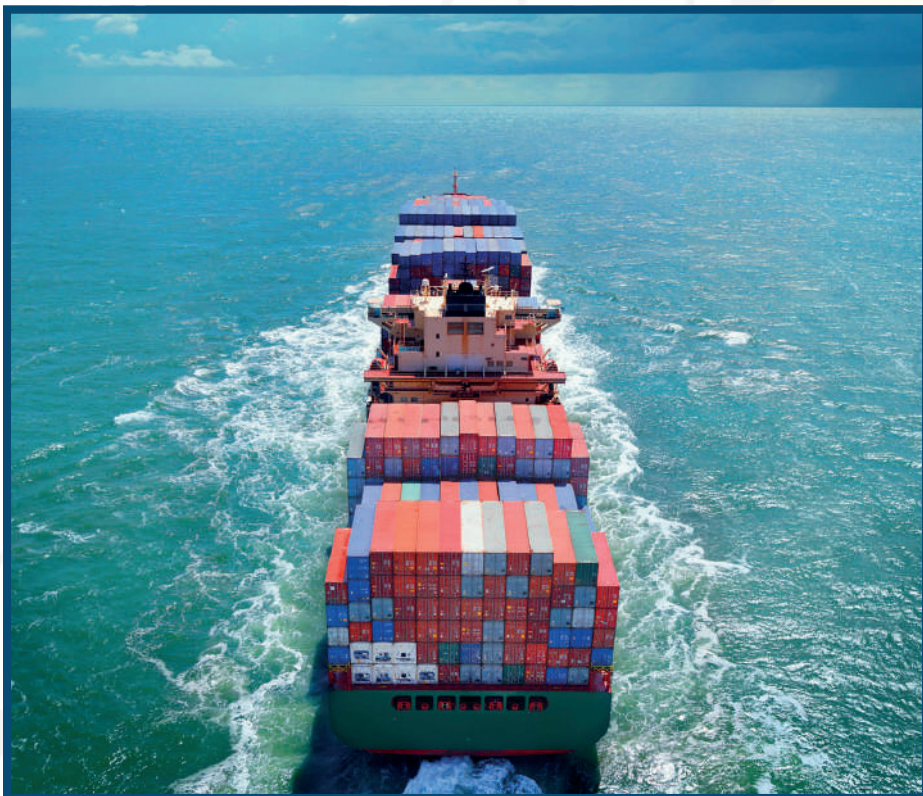

DEDICATED

Full and / or dedicated loads. This **ad hoc transport** service goes beyond the standard shipping procedure and is quoted on a case by case basis according to your needs. From super urgent same-day packages with a dedicated van to a full lorry of goods, we coordinate the loading and unloading schedule according to your needs with **road** transport throughout **Europe**.

traffico@macsped.net

OVERSEAS

Management of shipments **by sea** or **by air** to and from all over the world. MacSped has obtained membership in the IATA (International Air Transport Association), the global organisation for the regulation of air trade and transport that includes all the major airlines in the world. The IATA draws up safety standards for the transportation of goods and people and manages the issuance of tickets and travel documents to enable the smooth operation of world air traffic. As a **recognised IATA Cargo Agent, Macedonio 22 Spedizioni Srl** is authorised to operate by managing **inbound and outbound shipments by air** in accordance with **IATA operational and safety standards**, to directly issue Air Way Bills (AWBs) in accordance with IATA provisions, and to organise cargo shipments, being able to operate with all air carriers affiliated with the IATA (94% of carriers currently active).

overseas@macsped.net

LOGISTICS

Temporary warehouse to store goods awaiting shipment, from orders by the package (micrologistics) to full pallets, with dedicated storage areas. It is the perfect solution, which we have designed on the basis of a recurring problem, that of seasonal peaks in production that force businesses to rent or build a warehouse, limit the workload, or hire staff to manage the warehouse. We handle the **manual unloading of the container**, the **quality control** of the product, the **shelving** and picking of the products according to the customer's needs, the **preparation of the order**, and the **shipment**.

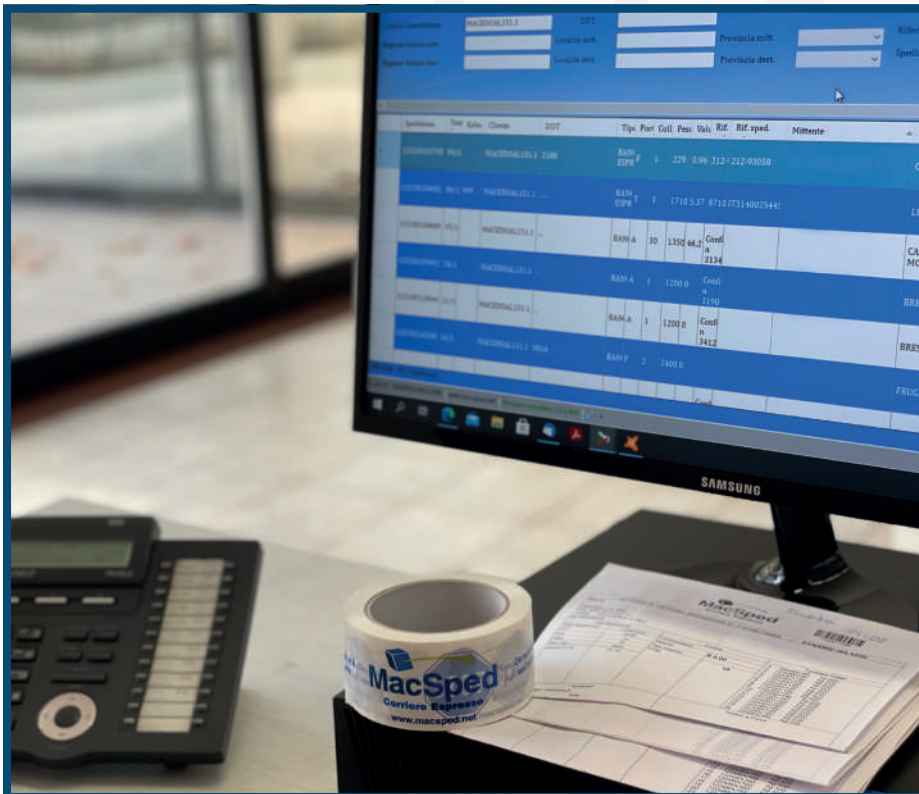

preventivi@macsped.net

SOFTWARE

We have developed **internal software** available to our customers so they have **full, independent control** of the shipment.

Implemented and customised entirely by us, the customer can manage requests for pick-up, self-billing, shipment, and the status of the shipments, and manage their own documentation independently.
